### New Format: Shamle Tournament

**Definition:** A shamle is a type of golf tournament that combines elements of a scramble with elements of stroke play.

Like in a scramble, all members of a team (usually four) tee off and the best ball of the four tee shots is selected. All players move their balls to the spot of the best ball. From this point, the hole is played out at stroke play, with all members of the team playing their own ball into the hole. So: select the best shot off the tee, move all balls to that spot, then play individual stroke play until each member of the group has holed out. (Continued on Page 2 & 3)
